Forecast for Wednesday 12 Oct 2022

Weather: Clear spells through the early hours, although western hills becoming cloudier towards dawn with some patchy rain. Then a mostly cloudy morning, perhaps a few brighter spells across eastern hills, with further patchy light rain, the rain becoming more persistent for a time in the afternoon. During the late afternoon and evening the rain clears southeastwards and the cloud gradually lifts, with some clear spells developing towards midnight.

Chance of cloud-free hill tops above 600m: Around 30% at first in west but nearer 60% in east through morning, becoming close to zero for a time in the afternoon, chance then improving close to 100% through the evening.

Low cloud and visibility: Periods or persistent, but more occasional at times in east, cloud developing above 600-750m, with patches below, through the morning, lowering, especially over western hills, to 450m at times for a time in the afternoon. Cloud becomes more occasional and lifts above the summits through the evening. Otherwise visibility below the cloud, very good falling to several kilometres in rain.

Meteorologist's View

Rather cold over summits, especially in rain.

Recent rainfall: measured at Cat & Fiddle: altitude 511m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Tue 11 Oct 2022	0mm	10.4mm	10.6mm

Forecast for Thursday 13 Oct 2022

Weather: Dry with increasingly long clear spells overnight, perhaps a few low level mist and fog patches. Then a sunny morning, although the sunshine will be hazy at times, especially through the afternoon as cloud above the summits increases and thickens. Outbreaks of mainly light rain spread east later in the evening.

Maximum wind: Variable 10mph or less overnight and through the morning becoming southerly 10-15mph by mid-afternoon then increasing 20mph through the evening.

Chance of cloud-free hill tops above 600m: Close to 100% then falling close to zero through the evening.

Low cloud and visibility: Little or no cloud below the summits overnight and through daylight hours, becoming periods or persistent cloud above 450-600m in evening. Otherwise visibility, a kilometre or less in any early low level mist and fog patches, but generally good or very good falling to several kilometres in evening rain.

Temperature: **Valleys:** Plus 3 or 4 Celsius at dawn rising to plus 14 or 15 Celsius by day
At 600m: Around plus 8 Celsius
Freezing level: Above the summits.
